The Perfect Water Medicine

drsircus.com/general/the-perfect-water-medicine/

February 14, 2022

Jim Humble, trained initially as an aerospace engineer, is the person most responsible for bringing to light the many unique benefits of Chlorine Dioxide, which is a simple well used water purification substance used by campers and industrial water purification systems for decades. That's the shortlist of industries and uses for this unique substance.

While using chlorine dioxide as a water-treatment solution during a gold mining expedition in South America, Humble made a serendipitous discovery. He observed that chlorine dioxide quickly restored health to malaria victims, evidence of chlorine dioxide's apparent ability to strengthen the immune cell response to infection. Intrigued by this success story, he became utterly committed to sharing his discovery with the world and exploring chlorine dioxide's benefits, with religious zeal, in treating other diseases.

On the first page of one of his books on chlorine dioxide, Jim Humble claims that "chlorine dioxide is recommended as a treatment for a wide range of diseases. These include "cancer, diabetes, hepatitis A, B and C, Lyme disease, MRSA, multiple sclerosis, Parkinson's, Alzheimer's, HIV/AIDS, malaria, autism, infections of all kinds, arthritis, acid reflux, kidney or liver disease, aches and pains, allergies, urinary tract infections, digestive problems, high blood pressure, obesity, parasites, tumors and cysts, depression, sinus problems, eye disease, ear infections, dengue fever, skin problems, dental issues, problems with prostate (high PSA), erectile dysfunction, and many others."

I blew this off when I first read this about 12 years ago. Now I know better. There are certain substances like magnesium, bicarbonate, iodine, hydrogen, oxygen, and even water that have the power to lift all boats, so to speak, meaning they reach into the cause of many if not most pathologies. Combining these nutritional healing agents makes total sense, but COVID just taught us that a new substance should also be on this list.

It just so happens that chlorine dioxide not only purifies water but it purifies our inner systems. It does the same thing to us as it does to water. It clears the water of all pathogens, viruses, bacteria, and fungus. There is no doubt about this in the water purification industry, and now there is no doubt that it does the same for the people who use it. It clears our bodies of pathogens. It oxidizes them with oxygen. The formula for chlorine dioxide is CLO2.

Jim Humble promoted chlorine dioxide as a stand-alone cure for everything, which it is not. Chlorine dioxide will not alleviate all the problems from magnesium or iodine deficiency, for example, nor will it address CO2 deficiencies in the blood. But the royal road to recovery from most diseases starts with the removal of viruses, bacteria, and fungus. It also begins

with blasts of oxygen released by chlorine dioxide. So it is now my Tiger Tank, the spearhead of panzer division of helpful healing substances, many of which are used quietly in ICU departments.

Of course, the FDA, which loves to approve hazardous medicines like COVID vaccines, ignores safe and inexpensive alternatives. The FDA **hates** chlorine dioxide, and the federal government will throw you in jail if you market it or sell it as a cure for anything. So one has to buy the basic, widely available chemicals and make a purified form of chlorine dioxide-infused water. I can assure you it will be well worth the effort. It will make healing from anything that much easier. Though I will write later about its effect on autism, read my lips, every parent of an autistic child or adult should investigate and use chlorine dioxide. The same goes for cancer patients.

A first patient with metastatic adenocarcinoma of the pancreas has decided, on his own, to refuse chemotherapy but to treat himself with lipoïc acid, hydroxycitrate combined with oral ingestion of chlorine dioxide. As a result, his blood tests and radiological examinations have almost normalized, and the disease is stable at 18 months. Another patient with hormone-resistant metastatic prostate cancer has experienced a sharp drop in PSA level as well as an improved medical condition.

Now to rub this in the face of the FDA:

Though the people who are behind this company teach people to make CDS at home, here is an **EU-approved German-made product. The company says in the clear: "CDS*plus*** is our completely newly developed and patented 2-component product. After activation, it contains a highly pure and absolutely chlorine-free aqueous concentrate of chlorine dioxide solution (approx. 0.29%) as a biocide for highly effective control of **bacteria, viruses, fungi, spores, algae, mites, parasites, biofilms,** and other pathogenic germs such as the dangerous **legionella**. CDSplus is up to 99.9999% effective, which the Robert Koch Institute confirmed. However, bear in mind that no claims are made, and it is only APPROVED for water cleansing, not for internal use.

After reporting on its ideal effect on COVID infections, the big news is the excellent work of Dr. George Georgiou in his laboratory. For Lyme patients, what he has to say is, "I am on the cusp of showing scientifically that chlorine dioxide can knock out Borrelia too, but this is a tricky pleomorphic organism that has protective mechanisms, but we are moving closer to 100% kill rate." Georgiou already published the effectiveness of chlorine dioxide against the worst antibiotic resistance bacteria.

So do not pay attention to one word the FDA has to say. If you do not want to make it yourself, go to the Aquarius site. For fifty Euros, you can get 250 ml (250 doses) of something quite magical. Jim Humble was correct to call it the Magical Mineral Supplement. It does its magic to water and the entire body environment. It is the ultimate gift you can give yourself for health.

CDS*plus* is approved for drinking water treatment, general disinfection in the private sector, hygiene in the veterinary industry, the food and feed sector. So drink up without a second thought. Treat your water with it and drink it down for body purification and detoxification, and that includes heavy metals. You use chlorine dioxide to make the ultimate water. It is the perfect water medicine.

CDSplus and the CDS you can make at home have none of the problems of the original chlorine dioxide solutions! So now we can go beyond the magical to heavenly God-given molecule. Dr. Georgiou agrees with me, saying, "I call it God's Natural Antimicrobial (GNA)."

Cancer Course

A COURSE IN NATUROPATHIC ONCOLOGY

Conquering

Cancer

Special Offer: My 100 lesson course on cancer at eighty percent off the regular price of 500 dollars. So your cost will be only 99 dollars. The course is part of a doctoral program at Da Vinci University and, when taken for credit, costs 1,000 Euros for both parts.

I WANT!
